

## Kölner Imitation Gold Leaf Starter Set

- 1.) Your object should be dry and free of dust and grease.
- 2.) All Kölner products should be stirred before application.
- 3.) Carefully apply the glue „Kölner Permacoll HA“ with a Kölner special brush.  
After 15 minutes drying time, the surface is ready for several hours to apply the ART METAL.
- 4.) Lay on ART METALL overlapping and press with a brush or a soft cloth.  
ART METALL adheres exclusively on parts that were coated with „Kölner Permacoll HA“ .
- 5.) To obtain an antique effect you can now apply the Kölner Permacoll Patina generously by brush.  
Take a soft cloth and rub and remove some of the wet patina, depending on the desired look.
- 6.) After 1-2 days drying time, apply by brush the „Kölner Leaf Protect“ which protects the metal from oxidation and other influences on durability.
